Dog Talk

Many pet owner's have no idea that pet health insurance exists. One way to offset the costs of pet care is to obtain pet insurance while your pet is young. Many times cost of preventive care ways in on the owner's decision making when it comes to vaccines and heartworm protection as well as acute care for those

emergencies that pop up. There are several pet insurance companies on the market that offer different programs for you to choose from. Starting out with good preventive care and pet insurance will enable you to offer your pet that same care when they become older and geriatric or chronic conditions occur. Insurance for your pet is a long-term investment to help both the owner and their pet.

Kitty Corner

I'm taking a survey! How many of your cats climbed up your Christmas tree! I finally had to take my tree down because the cats loved it so much! All in good fun. Remember to keep a close eye out on the tree tinsel and ornaments because when you least expect it, it will be gone! Cats can become very ill from ingesting string, tinsel, ornament hangers etc.

Get ready for Dental month! It's coming in February. We are taking dental cleaning appointments now so beat the rush and give us a call at 461-4416 and we will glad to tell you the dental discount details.

Thankyou! To everyone who brought the staff Christmas goodies! We also enjoyed reading all the Christmas cards sent to the hospital.

Advantage and Advantix are back!

Ferrets need vaccines too! Bring your ferret by for an exam

and vaccine update.

We also welcome rabbits and guinea pigs!

As we end out the year, we would like to thank all of our clients and their pets for a wonderful year and wish you all the best wishes for a prosperous and healthy New Year for 2009!
